Subject: in search of...

a laptop. I know that we have two of them (although I am specifically looking for the newer one with Windows 95 and the updated Excel). I propose that these laptops should be kept in the office so that they can be signed out by staff as needed. I have some stuff to do for the audit and the end of the calendar year, as well as 1st quarter end numbers and it would've been great if I could have taken a laptop home over the long holiday. Any objections to my proposal? I, unlike alot of my coworkers, don't have a computer at home to use. Thanks.
