Subject: Priority One Telephone Log
There is a one box series in the HSCA records called Unidentified "Priority One Telephone Log" that appears to be a log of telephone calls between embassies around the world, high level military folk, and other government officials. I am not sure who kept the log, but the records have never been referred to anyone. Matt Fulgham said they were not sure what to then, and Steve was not sure what to do with them either. So the box just sat. Have you seen these things? I need you to look at them when you have a few minutes. Steve is willing to come and look at the records to help us decide what to do, or if someone is going out, I thought I would send one of the folders out there for his advice.
