CALL REPORTDocument's Author: Ron Haron/ARRB Date Created: 02/23/98 The Players Who initiated the call? Review Board's representative in the call: Ron HaronLibrary of Congress's representative in the call: John E. HaynesDescription of the Call Date: 02/23/98Subject: Library Decl. of Compl.Summary of the Call:I called John Haynes, the 20th century Manuscript Historian who executed the Library of Congress Dec. of Compl., to obtain the complete indices to the Rockefeller Commission papers and the Liebengood/Church Committee papers. In the Declaration, we were provided only with portions of the indices that dealt specifically with the Kennedy assassination. Dr. Haynes will be providing us with the complete Liebengood/Church Committee index. As to the Rockefeller Commission index, Mr. Haynes said that they have treated that index as classified and had received permission from CIA only to release to us those portions dealing explicitly with the Kennedy assassination (Dr. Haynes does not remember who the Library dealt with at CIA). Thus, we only received pp. 16, 18, and 22 of the index. The Library is still waiting CIA approval to make available the remainder of the index. I think it is important we get the entire index to the Rockefeller Commission papers at the Library of Congress. To speed things up, I thought perhaps Michelle could have Barry Harrelson call Dr. Haynes to provide CIA authorization for us to get a copy of the entire index. Dr. Hayne's number is 202-707-1089.Don't forget to compose individual Action Item documents for any action items that resulted from the call!
