**Subject:** Bob Clark

At Bob Clark's request, the FBI team has stopped all other negotiations and document review work so that we can immediately complete review of the John Abt files. Also at Bob Clark's request, this afternoon, the FBI will be returning to us Jim Hosty's testimony to the Review Board. The Bureau has requested a postponement which we may have to present to the Board. I will call Hosty today to tell him that we will send him the tapes, with one redaction, as soon as we are able to make a new set.
