Subject:	JFK Library
Body:	FYITo: peterson @ ceu.hu @ INTERNET @ INTERLIANTcc: From: Jeremy Gunn/ARRB Date: 03/11/98 04:41:54 PMSubject: JFK LibraryDear Ms. Peterson,I am the (new) Executive Director of the JFK Assassination Records Review Board. As a part of our work, we are examining the "chain of custody" of White House records from the Kennedy administration. We are particularly concerned about records that may have existed on November 22, 1963, but that are not now available at the JFK Library. It has been suggested to us that you may have some helpful information for us. We are interested in approaching this issue in a tactful and diplomatic, but professional way. Do you think that you have some helpful information?You were recommended to us today as someone who might be able to help with this issue. By coincidence, I am leaving on Saturday to attend a four-day conference at Jagiellonian University in Krakow. If you thought that a candid discussion would be helpful -- and if you were available at the end of next week -- I could try to make arrangements to come to Budapest. If you think that your information could be easily conveyed by e-mail, that would of course be less expensive and more convenient. I would accept your judgment on the advisability of my coming to Budapest assuming, of course, that you would be available.Because I would need to make arrangements promptly, it would be very helpful if you might respond as quickly as possible. (I apologize for this untimely notice.) Of course, if you wanted to come to Krakow, that would be excellent as well.Thank you, and I look forward to your response.Sincerely,Jeremy Gunn
