Subject:	Emergency Telephone Numbers
Body:	Could you make a list of all emergency telephone numbers and give copies of it to Jerrie, Janice, me, and whomever else should have it. They should include the building manager/maintenance, alarm, lock company, security, yours and my pager numbers and home phone numbers, my car phone number, Chet's numbers and any other numbers that you can think of. I personally have not been consistent in carrying my pager with me when I am out of the office. I think both you and I (it's lonely at the top) should try to be very consistent about being reachable at all times. We should arrange for some code or system so that we will know when a pager call is an emergency.
