Subject: Pittman and informants

I have background information on several informants which I have placed on the FBI desk chair. Let me know if I need to research anything else or if we need to discuss. I am going back to the FBI to pull Pittman files to answer a few questions that have arisen. John Orion Pittman was a Communist Party member who made frequent trips to the USSR on official Party business in the USSR. This made him a difficult comparison to Oswald for the HSCA. The four pages from the Pittman files rif 3 282-10168 , 282-10166, 282-10165, and 282-10167 are all from 1963 and have many of the same issues as the Gus Alex NBR. The information is from Army reveals an operational technique and has issues of foreign information. The information does not provide new information on Pittman. I am going to head back to the FBI now to try to locate these files although I believe they are in Lesar now. Let me know of anything else you need.
