Subject: CIA Disks

Body: I put a lot of CIA disks (32, to be precise) through the batch file/dbase process. From now on, I will let the disks pile up until Friday, so that I won't overwrite anything and you can put them into Notes on Sunday. I'll let you know if there are no disks that week. I have also started a database on Excel listing which disks are at what point in the process, so let me know that you've done the Notes thing so I can keep that current.
