To: Douglas Horne/ARRBcc: From: Jeremy Gunn/ARRB Date: 05/04/98 01:38:40 PMSubject: Draft 5 of Medical EvidenceI have reviewed draft 5. It is clear that you put a great deal of work into this, and I appreciate that. To me the tone of the memo is that of a prosecutor's brief against the findings of the Warren Commission and the HSCA. As you know, I personally have many doubts about what the WC and the HSCA did. However, our job is to be as neutral as possible when we present the information in full to the public. I am sure that Gerald Posner, using the very same evidence, could present an equally passionate case for his side. I do not question the strength of your beliefs. Please send me the e-version of the draft. Please devote the remainder of your work (for now) on this project to preparing the part that appears at the very end (Kodak Pro-Bono Work).
