Subject:	Mail Certificates
Body:	Cathy got the "Renew Mail Certificate" message today. I used the Mail/Send User ID/Request Certificate option and had her send herself a new certificate. It then asked her to certify the certificate (or some such thing) and wanted to save a file on a hard drive. I didn't save the file anywhere, but I saved the email. I was just checking to see if there was anything else to do. I can explain it better tomorrow when you come in if necessary.See you later...
