Subject:	Library Database
Body:	I can't remember if I've told you about this yet, but Jessica hasn't been able to add any books to the library database. She can create an entry form and fill it out just fine, but it never gets saved. The odd thing is that she's succeeded in doing this in the past. I don't know if something got changed (she still has editor access to that database) or if the documents are actually being saved but aren't showing up in the view for some reason or some other arcane problem.Thanks
