Subject:	NSC Disks
Body:	Hey there!Jessica has some disks with NSC RIFs that should be loaded sometime. I have a few questions about this:1) Do we know which database they should go into yet?2) Would I follow the same procedure as I do for CIA disks?3) If the procedure is the same, can I do CIA & NSC disks at the same time, or should I do them in separate batches?4) I don't know if the disks are full. Should we wait until they are to load the RIFs, or can we do it piecemeal?I think that's about it for now. See you next week...
