Subject: NSC Disks
Hey there! Jessica has some disks with NSC RIFs that should be loaded sometime. I have a few questions about this: 1) Do we know which database they should go into yet? 2) Would I follow the same procedure as I do for CIA disks? 3) If the procedure is the same, can I do CIA & NSC disks at the same time, or should I do them in separate batches? 4) I don't know if the disks are full. Should we wait until they are to load the RIFs, or can we do it piecemeal? I think that's about it for now. See you next week...
