I'm sorry to bother you again, but do you know the following:1) date of first meeting of Board (at which, I presume, Jack was elected Chairperson)?2) date David was hired as Executive Director3) date David officially left4) date Jeremy became Ex.Dir. (was he "Acting" first?, in which case two dates would be helpful; the date named acting, the date elevated to full, non-asterisk status)5) how does Jeremy, formally speaking, like his name referenced (Dr., Esquire, Supreme Potentate, whatever) (Just kidding, Jeremy!)6) date of passage of '94 JFK Act extension7) meeting date on which Board voted to extend its life for one year8) date of passage of whatever extended us (enabling me to ask all these annoying questions...) for this last wonderful year If 6 and 8 will be in whatever Cathy puts together for me (see other email you're cc'd on), then just ignore them.Eileen, I'm referencing all this date/milestone stuff in the briefest of fashions in the introduction to Chap. 1 and am not in any way preempting whatever more detailed presentation you may be making with some of the same raw material in Chap. 2 (in case it crossed your mind).P.S. There's a beer in all this for you (though when I'll have the opportunity to buy it for you is unclear at the moment), in case you hadn't already assumed as much!
