Subject: Extension

I have briefly scanned all the minutes from 1996 and early 1997 except those I have in the SCIF safe due to SCI material (these minutes are not necessarily restricted to SCI material if the SCI matter came up on the same tape as a regular closed meeting). I have found no formal motion and vote on this subject. I'm sure someone on the Board or one of our staff members reviewing the minutes would have noticed that I didn't put it in the minutes. I'm sure I've never missed transcribing a formal vote. Tracy said she, too, thinks it just evolved. She has an Extension File and she will check her files also. It was probably just a "given" due to everyone's realization of how far away from completion we were at that time. I'm thinking any discussion about it was during a briefing session rather than in a formal meeting. I didn't even find it listed as a topic for a briefing session.
