Subject: Files and supplies

I have left the files in the Executive Director office in tact. They were working/reference files. In theory, they contain only duplicates -- although I imagine a few stray originals (such as letters from the public) may have found their way in. I would suggest keeping them the way they are so that if there is any need, I can point you to them. But you should obviously do whatever you think best. The files in the cabinet immediately to the left of the desk (if you are sitting at the desk) generally are files for current matters. I have left on the side table one stack of foreign-related records and a folder I promised Laura. The foreign records are duplicates that I earlier asked Jerrie and Cathy to prepare regarding foreign requests. They were working copies and may be kept or jettisoned as you think best. I have distributed to Eileen and Kevin some files that need to be integrated. I have left some files for Cathy in the Board room that need to be put in the 4 series. I have also left my unused supplies (particularly paper clips) in boxes in the Board room. I have taken home my working set of medical exhibits (which are copies of those in the office). I will use them as needed for preparation for the Dallas depositions. If you want them back later, just let me know.
