Subject: call reports

Body:
At one time, Jeremy had talked about filing all the copies of the call reports that I had printed for creating one of the final report appendices. These call reports, as you can imagine, are quite voluminous, one full redwells worth, each call report between 1-3 pages. So it would require a lot of filing, which I don;t mind, but I just want to be sure we want to go through with this, given that the call reports would already be accessible via our computer database,as far as I understand it.Any help is greatly appreciated. Thanks, Cathy.
