AMSubject: chapter 6 draftWe named it petes.bst because it's Pete's best!! (ha ha)Pete and I went through
and deleted in Reveal Codes all the odd codes such as Arial with Palatino right next to it, so that the template
would not "act weird" or freeze up.Jeremy asked me at 5 last night to go through this document and make it
match his new guidelines, which I have not yet done as I told you. Please ask me if you have any questions
about what Pete and I might have done.
