Subject: Additional Follow-up Questions for DO
To: Michelle Combs/ARRBcc: (bcc: Non-Record/ARRB)From: Irene Marr/ARRB Date: 03/13/97 03:19:53
PMSubject: Additional Follow-up Questions for DOSubject: Electronic Surveillance in Mexico CityQuestion: If we wanted to obtain all electronic take produced by the Mexico City Station in the immediate wake of the assassination and during the period of Oswald's visit where would it be located? How could we verify that what exists in the sequestered collection represents all records of the electronic production that was available at the time of the assassination? If it still exists, where would it be stored or filed and what searches could be done to retrieve it? If such electronic take destroyed, how could we obtain a record of the destruction?Subject: CIA's Relationship with the PressDid the CIA have any relationship, projects or contacts with publishing houses during the time of the Kennedy assassination and in the aftermath of the Warren Commission? How would we verify whether CIA had a relationship with any of the same publishing houses that were also publishing books about the assassination?
