Subject:	Draft Review Form
Body:	I circulated a draft record Review Form. We are now considering whether we will use such a form up until we become operational on the computers. In its current phase, the proposed procedure will be to take review forms and RIFs to the agencies while conducting the review. We will staple the RIF to the Review Form and fill out the review form.I would appreciate receiving your written suggestions as to how we can make the Reveiw Form more useful, accurate, and precise.
