**Subject:** New look for Review Track RIF  
The RIF has a much improved look, postponements are now presented in postponement order. Also the mail bug is now really fixed, unless its not. Several other small fixes including the postponement number. You may need to open the rif in edit mode and then save it to get the number to be correct. The Supervisor will always be doing this, so the number will be correct when it gets to the board level. thanks for all the ideas I am keeping a list and will be adding them as we go along.
