**Subject:** Re: Agenda for Experts Conference

My suggestions may not be original or overly specific but I want to know: 1) Names of private entities/organizations/individuals who have custody (if not possession) of records and what they might have. This is broad ranging and is meant to be. (ie. Were there anarchist-type groups (domestic or foreign) which might have plotted his overthrow/destruction which would lead to records, is there anything in the Wall Street conspiracy school which would lead to records, what can be done to effectively turn New Orleans inside out to gather all records there, are there other geographic areas we should look at as potentially holding large amounts of information, what has been done to flush out the missing segments of LHO's teenage years (relative to schools/employment) and what records beyond the usual should be be aware of in this vein?) 2) Along the lines of #1 I'd like to know more about Kennedy family ties and business interest ties to attorneys, private investigators, etc (yes, I know, A/C privilege) especially Five Eyes Investigations and what connections to the Cuban exile community, LCN, Hollywood, or other possible assassination links/records we might find in those sources. 3) I have no knowledge of this area, but to follow up on some of what Gus Russo suggested, what exists to show RFK's links to the Cuban exile community and Hollywood and others which would lead us to record? 4) What involvement did Joe Kennedy have with Hollywood and LCN (yes, I know he had a lot of involvement with both) which would lead us to assassination records? 5) What is known of LHO's alleged travel to Canada (Montreal?) in 1963 and what records should we be looking for if that travel occurred?
