Subject: Re: Agenda for Experts Conference

Two initial thoughts on the agenda:1. Private Investigations/"Off the Shelf"/"Unofficial" Investigations of the AssassinationThere have been frequent references in the assassination literature to various "unofficial" investigations which were allegedly conducted by, on behalf of or at the direction of private parties or government officials after the assassination. This area need not be a major item on the agenda, but I would particularly like to raise it with Blakey. Did the HSCA staff find evidence of any of these other supposed assassination investigations? Is there any credible evidence worth us following to find assassination records?2. The Ruby TrailThis is also an area that I would like to raise with the experts, particularly with Blakey because of his conclusions about organized crime involvement in the assassination. Is there any place else for us to look for assassination records related to Ruby? Please send me your ideas on specific topics that should be raised.
