**Subject:** Re: David Montague

Tracy just gave me the good news that David will only need to complete the fingerprint cards and that with those, a record check can be run by the FBI. As long as that comes back clean we can request his file from DEA and as long as it is current within five years (which it is) we can bring him on board without having to do a complete background investigation. I called David and asked him to get his fingerprint cards to us ASAP.

AMSubject: David MontagueDid you have success in learning his status (re: clearance issues) yesterday. I'd like to speak with him by this afternoon to let him know if he should complete the SF-86 or not. I gather he needs to complete the fingerprint cards regardless of what DOJ says about his clearance. David - will you be sending him a letter with the offer, etc?
