Subject: Re: HSCA records

Sorry this one has fallen by the way. Milam raises three issues, only one of which I have an answer for at the moment: issue one (appropriately enough). I looked at the 2/26/78 document from Finck to Purdy today while I was at Archives I. It is referred to the CIA, but I'd be shocked if they recommended postponement. The document is a "Memorandum For Record," with the subject heading: "Transcript from Personal Diary." All the subject references on the RIF which Milam finds so odd and suspicious are a function of the notes that Finck took when he attended a 12/8/77 conference at which a Lloyd Braithwaite spoke on "Organized Crime and the JFK Assassination." That is to say, they reflect the contents of a public speech by a third party, nothing more. To: Joseph Freeman/ARRBcc: Jeremy Gunn/ARRB From: Anne Buttiner/ARRB Date: 06/27/95 10:05:42 AM Subject: HSCA recordsI've reviewed all the public hearing transcripts for references to non-federal investigative leads. I am giving Joe a copy of Wallace Milam's comments to the Board during the Dallas hearing. Milam mentions several HSCA medical evidence records (transcripts and tape recordings) which are missing or missing in part from the Collection, although from Milam's descriptions it does not appear to be a redaction issue. I'm passing this on FYI.
