Subject:	Re: SS Request no. 1
Body:	David: Jeremy is well aware of the fact that the Board was meeting yesterday and that they would be considering Secret Service liaison materials. Jeremy also understood that the Board's decision about how to review these materials would have further implications for other Secret Service records. I prepared summaries of the contents of these sections on Monday and Tuesday. I was attending the Board meeting when these materials were under discussion. I was also present while the Board discussed other FBI-related matters. I would point out that my review of the Secret Service liaison sections was hampered and delayed by Jeremy's ill-conceived insistence last Friday morning that I rush through a review of the Secret Service HSCA material. I attended the Board's open meeting on Monday in order to learn about your plans for the next several months. Since Jeremy has failed to communicate his plans to me, I had no choice but to learn--along with members of the public--what he has in mind. I would have drafted his letter this morning. I will at this point record my objection to the path he has chosen, and I will monitor the results of this letter. I note that he has failed to provide me with a copy of his draft. Would you please ask him to give me a copy of his letter? I do not appreciate Jeremy's feeble attempt to create the impression that I am doing anything less than what I should be doing. Please take note of this.To:David Marwell/ARRBcc:Joan Zimmerman/ARRB From:Jeremy Gunn/ARRB Date:10/25/95 06:48:24 AMSubject:SS Request no. 1I gave up waiting for Joan to draft the letter to the SS regarding Rowley's correspondence. My draft of the letter is in your box. Please give me your suggestions, as I would like to get the letter out today if possible.
