Subject:	Re: Secret Service Records
Body:	I note that Jeremy has asked me to review the HSCA-Secret Service records without having heard any agency justification for postponements. This marks a departure from our established pattern of requesting evidence and then undertaking a review. Although most of the postponements involve privacy matters, there are materials that-- from the Secret Service perspective--involve protective functions, and we should hear their justification before making a recommendation. Since the Secret Service has specifically requested an opportunity to make an oral presentation at the next Board meeting rather than offering written justifications, we need to adjust our review process accordingly. Since this will be the first time the Secret Service will have gone through our formal process, we should make sure that everything is done properly. I will categorize and research those records that involve protection and various types of privacy claims. I am also reviewing the Secret Service liaison file in light of new guidance from the Board. They indicated that they want to revisit this file at the November Board meeting. Have you scheduled a specific time for Secret Service representatives to make their presentation to the Board? We should let them know well in advance when they can come.To:David Marwell/ARRB, Joan Zimmerman/ARRBcc: From:Jeremy Gunn/ARRB Date:10/23/95 08:11:32 AMSubject:Secret Service RecordsThe SS does not consent to our having the Board review any HSCA records without their having had the opportunity to provide evidence.Joan--please do all of the Review Track data entry on the SS-HSCA records. All of the records will be submitted to the Board in the November meeting.
