Subject: Re: Ed Hoffman Manuscript

Of course. I remember seeing Groden's video and the credence he lent to his interpretation of what Mr. Hoffman may have witnessed. I don't know if you received the entire email, Tom, but Dave received an internet message from two researchers who said they were sending the transcript to him and to you. I asked Dave about it and he said he didn't know about it, but hoped you did. Apparently the researchers, whose names now escape me, met you at the COPA conference (or so their message said.) He has been a controversial person, in that some people believe that he was a witness and other people do not. He is interviewed on the Groden tape and the A&E series "The Men who Killed Kennedy." I am not aware of his manuscript. I would not put it high on the priority list, given all of the original films and photographs which need to be tracked.
