Subject:	Re: Federal Register Notice
Body:	I would like to tlak about this in person to make sure I understand exactly what you are saying.To:Noelle Gray/ARRB, Phil Golrick/ARRBcc: From:Kevin Tiernan/ARRB Date:11/21/95 02:42:59 PMSubject:Federal Register NoticeI wanted to be clear before I started changing numbers in the Review Track/Review Track Archive databases. If a Board review form recommends "postpone", then that is one sustained postponement and no releases. If a Board review form recommends "modify", then that is one sustained postponement and one release. Is this the way we are counting right now? Doesn't a recommendation of modification mean that the Bureau did not respond in a timely manner, but they are not going to complain about releasing the prefix and suffix of a symbol number?
