**Subject:** Re: Dr. McClelland

I do not believe there is anything to be gained from compelling Dr. McClelland to speak with us. He has given several interviews over the years and has been fairly consistent in his opinion that Kennedy was shot from the Knoll. I am not aware of any previous statements from Dr. McClelland that need clarification, except perhaps for his original opinion that the President was shot in the left temple, but I believe he has retracted that statement. Serving him with a subpoena and forcing him to give the same information he has given over the years would be, in my opinion, a waste of time. Furthermore, there is no evidence that I have seen that indicates Dr. McClelland (or any other Parkland doctor) has any medical records not already in the JFK Collection. McClelland Dr. McClelland does not want to talk to us. He said that he has said everything he has to say on the subject. Please continue to prepare a witness file for Dr. McClelland and highlight: (a) portions of his prior statements, if any, that you believe may be in need of clarification; (b) any evidence that he himself may be in possession of records. Please give me an assessment (or assessments if you disagree) about how far it would be appropriate to press our wish to interview him.
