Subject:	Re: The confusing mystery document
Body:	It looks like a bug in the counting of 1a&1b combos.1-13 is a 1a&1b.I can fix it but for the short term why do we not just select the 1a or 1b for the part that will be postponed.To:Chet Rhodes/ARRBcc: From:Christopher Barger/ARRB Date:12/01/95 09:07:42 AMSubject:The confusing mystery documentMary was mistaken about the RIF of that document with 14 redactions that's listed as having only 13. The true RIF is 104-10015-10396.
