AMSubject: Your Dallas TripI suggested to Dennis yesterday, after we spoke with you, that we provide you with the following additional "working tools" for your all-day session on Saturday with Gary Aguilar: Sibert-O'Neill Report Autopsy Protocol and Supplementary Report Face Sheet and Rydberg Drawings Military Inventory of November 1, 1966 (Signed November 10, 1966) Military Review of January 26, 1967 Clark Panel ReportI ran off copies of these items, and Dennis should be providing them to you today prior to your departure, in addition to the Parkland Witness Files and the list of Deposition Questions (updated yesterday).I also recommend you take HSCA Volume 7 with you...the Forensic Pathology Panel hearings are a good source for interesting leads and there are several references to HSCA 7 in the list of Deposition questions. END
