**Subject:** Re: Final Determination Notifications

The only "covering document" that exists "for each bulk release" would be the press release for that set of documents. For these particular sets of documents, the release is dated December 20, 1995. You should have received it, as you are on the mailing list, however if you did not, please let me know and I'll be glad to send you another.

 Subject: Re: Final Determination Notifications

Thank you for your prompt reply. I realize now that I expressed my request ineptly. I have a Final Determination Notification ("FDN") for each individual document I possess. What I am looking for is a covering document, if one exists, for each bulk release. The analogy I made to the FDN for the 95 pages of the Lopez Report was not a good one, because of course that was (despite the number of pages) a single document. While I am at it, I would like to make a modest request. It is that the ARRB number its press releases, and also number its document releases. As one who is trying to follow up on all the valuable pages being released, I find it hard to know if by chance I have missed something.

Yours sincerely  
 Peter Dale Scott
