Subject: Re: Los Alamos computer scans of Zapruder
I'll try to find the letter stating there would be approximately 40 digital data tapes sent to the HSCA so that we can discuss it in Friday's meeting...Dave To: David Marwell/ARRBcc: Tom Samoluk/ARRB, Dave Montague/ARRB From: Joseph Freeman/ARRB Date: 01/30/96 12:20:18 PMSubject: Los Alamos computer scans of ZapruderYou recently asked me to try and confirm if NARA had the above scans as referenced in HSCA documents. Dave Montague was way ahead of me... the scans are listed in an inventory Les Waffens group put together at Dave's request. I've attached the relevant section of the inventory to the hardcopy version of this E-mail. You'll notice that, although NARA has them, the inventory states that "no software is currently available to read these tapes."
