Subject: Re: folder on doctors' testimony

Do you see a folder marked "Parkland doctors" or some equivalent designation. Let's tell Machado that that is what we want to see.

I called Machado back. He said that the folder contains press transcripts and that Mike Sampson will copy the contents of the folder. Machado said he will drop this material off today along with the Manchester manuscript.. I asked him about Secret Service agents' reports of their conversations with the Parkland doctors. Machado gave his usual answer--those reports are in the Official Case file at NARA and he doesn't know where anything else would be--and complained again about the release of the LBJ Library material at College Park.I will keep looking for more evidence of those conversations in the HSCA collection, which also contains duplicates of USSS reports.
