Subject: Re: need a font

Body: Hi! I got both of your messages and I will respond to the longer one later, but I wanted to dash this note back to you so that you could work on your resume. My favorite fonts are Arial and Helvetica, especially if you are trying to fit a lot of information on a page (like with a resume.) Our computer guy disagrees. He like those fonts that have little thingy-ma-jiggies hanging off of every letter. The best of those is Times New Roman. Good luck & thanks for the e-mail & recipes. I'll write more soon. (Only about 20 days till Aspen.) Bye

I'm working on my resume and other letter type font and remember you talking about your favorite font. Please, what is your favorite font? Hope you're having a good day. Just got back from a great run. Feeling good! Janice
