Subject: Re: Limousine photos

I do not know where any such photos are. Good luck in your search.

Subject: Limousine photos
I discussed this with Doug and Phil. We are all aware of the photographs of the limousine taken by the USSS (color pictures) on or about 11/26/63 in the White House Garage. The report that you gave me which establishes the chain of custody of the limousine, post-assassination, has a paragraph which may indicate the existence of other photographs. I searched the FBI open and not open databases and found no additional photographs of the limousine.
During the course of this examination, a number of color photos were taken by this (FBI) search team. They concluded their examination at 4:30 A.M. and the (President's) car was reassembled and put back in the storage bin."Have you seen or do you know of any color photographs of the limousine with the backseat removed and the rugs pulled up? Phil said that the Official FBI report had many pictures as exhibits which are at NARA. I am going to call Steve Tilley to get access to the official report and the pictures. I will also be searching the database again to make sure that I have not missed anything.
