No you don't, Jerrie has them tomorrow! I think you're looking at next week.

I have phones on Friday. I will need to arrange to switch a Friday for a Friday with someone. Is anyone available to trade?

After speaking with Chet, we have decided to move the testing of the system up to start at 11:00 a.m. on Friday. This way if there are any serious glitches (which we don't expect!) we can still finish up before folks have to start going home. We will take a break for lunch at an appropriate time.  
Thanks, and see you there!

Subject: Test of System  
I would like to walk thru a complete test of the system this friday if possible. We would take boxed documents and move them over to the test database and move them completely thru the system to the Final determination form. I would propose we tape the whole thing and let Jerrie produce a transcript that we could start making into documentation. If we could start at 1:00 that would be great. As we get to specific areas we could call on the Team reps to help us out or point out problems. Let me know if this works out. If there are any unresolved issues from the last FRN notice that I have not placed on the following list please email me with the problem.  
Problems Addressed: Redo Final Determination summary, Eliminate the Postponement voting form  
Modify Running man to work on the Postponement Details  
Improve voting macros for speed and problems  
Correct date problems  
Thanks for your help on this.
