Subject: Re: records on JFK

Mr. VanArsdale:The Assassination Records Review Board is an independent federal agency created to oversee the identification and release of records related to the assassination of President Kennedy.We do not have any publications, however, we do issue press releases and advisories relative to the release of additional documents from agencies such as the FBI and CIA. If this interests you, please let me know and I will add your name to our mailing list.As I am sure you are aware, many books and articles have been written about the assassination of President Kennedy, and you may wish to consult your school or local library.Good luck with the research paper, and let me know if you would like additional information about the Review Board.Eileen A.
