Subject: Re: Renumber postponement macro

Body: Fixed the renumbering macro and gave a new printout to bob and Kevin.I also created a new VIEW in BY meeting\Ready for Archive RIFS ONLY that you should use to run this macro. I reran the macro on all the documents and it cleaned up the numbering.Please page me next time you are in to go over stuff.thanksTo:Chet Rhodes/ARRBcc:David Marwell/ARRB From:Noelle Gray/ARRB Date:04/19/96 09:29:43 AMSubject:Renumber postponement macroThere is no way to cancel this macro if you happen to select the incorrect documents. Can you adjust this please.You are right everything from this view disappears when you run this macro even if you only run the macro on one document.I have passed out the document summaries to the teams and will find out if there are any major errors when they return them to me. I will let you know the outcome. I have voted all the documents for this meeting except Mary's RED FOLDER documents which I am waiting to go over with Bob on Monday. (He is at the CIA today.)Talk to you whenever and thanks again.
