Subject: Re: How To
Are you referring to the information currently in the help screens of RT and Archve? This information is probably outdated by now. I will gladly put in the information from "A Day in the Life of a Document" when it is completed.

Subject: How To I have a database called How to in the system, I think it would be great to add the info on computer stuff we have into that database. Please let me know if you have any question about how it works.
