Subject: Re: FYI
I have a building security meeting tomorrow. I'll let them know. Thanks.

The security in the garage is very poor. One time, when I was told to leave my keys with the attendant, I returned at about 6:30 p.m. and found the windows to my car open, the key in the ignition, and no one from the garage around.

I have just been notified that a vehicle was stolen from the parking garage on June 11. The owner of the car was told to leave her keys in the ignition since there were no available spaces. When she left that evening, the car was gone and has not been recovered. The car was a black acura legend 4-door sedan with VA plates ZNM 7032. I have been asked to let you all know that you should lock your car and give your keys to the attendant if you are requested to leave them, and don't ever leave them in the ignition or car. If you have any info that may be helpful for the police in catching the person who stole the car, please contact Tommi Barnes, Acting Assistant Director, Security Programs Staff, on 616-6640.
