Subject: Re: MW Letter--Scanned In; Intercept Order Sent

David,I didn't realize that you had already sent the package. I am very sorry to put you to this inconvenience, and I appreciate your efforts. As I mentioned to you, I believe that this will be in your interest as well as in ours. I will be able to give you some more information next Saturday. Best, Jeremy

Subject: MW Letter--Scanned In; Intercept Order Sent
Jeremy: I just got off the phone with the USPS "Re-Direction" unit. The record of the "LAX scan" now exists on the computer; and so I asked that it be intercepted; and re-routed to the address of my mother's residence in Manhattan. So now, assuming everyone does their job right, it will in fact be intercepted. One person faxes another; and then, at the local post office, a clerk is supposed to put a "Reroute" sticker on the package, which will insure that it doesn't get delivered to the original addressee. They told me to call back several hours from now, for confirmation that it in fact was successfully intercepted. I'll let you know (via email) when I know, but I don't expect to get confirmation till the end of the day (and I'll really know this worked when my 84 yr old mother calls me and wants to know why she is getting a package down in the lobby addressed to a "Mr. Weitzman"). Sincerely, David
