Option 1: I will look at them on Wednesday. Option 2: You can fax them to me at home today and I will call you back.

I have put in your in-box two draft memoranda to Carol Keeley identifying what we think are assassination records in the referenced files. In one of the draft memoranda, I have put in brackets and italics those records that, in my view, are less clearly assassination records (if the designation were entirely up to me, I probably would not include them). I'd like to reach closure on this issue (at least in terms of communicating the ARRB staff's views to the FBI) as soon as reasonably possible.
