Subject: Re: 3 Outstanding NSA-related HSCA documents
Tim--Please handle as you think appropriate. Unless there is a problem, it would be nice to get the letters to the Board for disposition.

Record
There are three HSCA Numbered Files documents referred to NSA. I am presently (which is to say, once again) involved in attempting to clear "minor" agency (which is to say, non-FBI/CIA) referrals. I know there's been a lot going on with NSA recently. Do folks wish me to not confuse people with a separate referral letter at this point? Or can I go ahead and draft a letter to NSA? And, if I should, to whom would you advise it be addressed? Thanks. P.S. There is also a Church Committee-generated, NSA-referred, document in the NARA-FORD collection. We'd have to get NARA-FORD to cough up the document to us first, before we referred it ourselves to NSA. Should this be included, if we proceed with a letter?
