| **Subject:** | Re: HSCA Cross-Reference |
| **Body:** | Joe I think we have addressed all of this if not please reply and I will add whatever views you need.chetTo:Chet Rhodes/ARRBcc:David Marwell/ARRB From:Joseph Freeman/ARRB Date:08/02/96 08:56:46 AMSubject:HSCA Cross-ReferenceIn addition to a program/macro that cross-references this new database against the Review Track Archives and Consent databases, it would also be useful to have a set of "view" options corresponding to the 4 fields in the database (ie, "by RIF", "by Agency/Reason", "by Box", "by Agency File Number").  I can get an approximation of most of these by simply running searches (which David was kind enough to set up for me yesterday), but having the views would be convenient, if it's not too hard to set up.  Many thanks.  P.S. The views issue is not time-sensitive at all, whereas the cross-referencing w/the other two databases would be immediately helpful. |
