**Subject:**    Re: Memory issues

what application are you starting when this happens?To:Chet Rhodes/ARRBcc:David Marwell/ARRB From:Laura Denk/ARRB   Date:08/28/96 02:52:21 PMSubject:Memory issuesWe (in our office) have been getting dialogue boxes that say that there is not sufficient memory to start an application.  When this happens, I haven't really had much running.  Sometimes, it helps if I close the "WP Print Process" program.
