Subject:	Re: Reminder on subject field in HSCA-Church database
Body:	I remember talking about this, can you give me some rif numbers that are messed up.or is it all of them thanksTo:Chet Rhodes/ARRB, David Marwell/ARRBcc: From:Joseph Freeman/ARRB Date:09/24/96 11:37:23 AMSubject:Reminder on subject field in HSCA-Church databaseAs you'll recall, there's a problem w/the subject field in the HSCA-Church database, wherein information in that field is repeated over and over again until it fills up the field. While this is not a crisis normally, we intend to use this database to generate the RIFs which will have to be attached to all the HSCA-referred documents now being returned by the CIA and FBI (NARA referred these without electronic RIFs and so we need to generate and attach them before forwarding the documents to Steve Tilley). It would be great if this problem could be fixed prior to that time so that the RIFs attached to the documents in the public collection aren't all screwy.
