**Subject:** Re: Draft letter, JFK library

Megan DESTROYERS OF THE JFK LIBRARY ASKED DAVID TO HAVE US SEND A LETTER LISTING ALL OF THE ITEMS THAT WE WOULD like from the JFK Library. David asked me to have you prepare the draft letter. On 9/21 I sent the following message to you: "We would like to send a letter to the JFK Library that contains something like a "punch list" of items that need to be done. Could you prepare a first draft of the letter (relying, presumably, on your memos of June 24 and chart of June 27). If you are uncertain about the status of an issue, please include it and put it in brackets with a question mark. I would like the draft letter to be as all-encompassing as possible. Please try to get the draft to me by this coming Thursday." On 10/1/96 I sent the following request in response to your draft letter that identified only the files that the ARRB staff would like to see: "It needs to include, however, not just an identification of the records that need to be reviewed by the ARRB, but a comprehensive list of all items that need to be done by JFK Library. For example, it should identify the categories of documents reviewed by CIA, State, and DOD. We want to send JFKL a list of everything that we can now identify that needs to be done." Given that the JFK Library has asked for this letter -- could you please (unless you are too busy with other matters) try to prepare a complete letter to the library before you leave tomorrow? Thanks. To: Jeremy Gunn/ARRBcc: David Marwell/ARRB From: Mary McAuliffe/ARRB Date: 10/01/96 02:15:28 PM Subject: Re: Draft letter, JFK library

I think that before proceeding further on this letter you should know (as I have just learned) that the E.O. scanning teams have just finished up at the JFK Library, where they scanned and released a high percentage of the RFK boxes that ARRB team looked at in June--in addition to a huge amount of other stuff, including Presidential Office Files, more National Security Files, a number of private collections (including Schlesinger, Salinger, Sorensen, and Amory), and all classified tape transcripts and oral histories. Any assassination or assassination-related records in this material will (if still sanitized) come to the Board directly. Now that this year's scanning process is over, JFK Library will also be sending still-classified assassination records from our June trip to the Board and released-in-full assassination records to NARA. Response from the agencies on the June records has been good, and the Library is aiming at a late October date for a large release of records. Given all this, I would suggest that the next step be to see exactly what has and has not been reviewed and released in this effort and identify any remaining records of possible interest--something that can best be done when Stephanie gets back from leave. Since (I believe) CIA, State and DOD have not agreed to review anything more than Cuba records in the National Security Files (a process that is now nearly complete), I would then suggest working out an agreement with these agencies to review any additional records that have been identified before
