Subject:	Re: Large document problems. UPDATE.
Body:	I have created a macro called Large Doc Viewing MacroUse this to view Documents with Large numbers of Postponements (greater than 40)The macro will generate some error messages but that is OK. I am working to test this and make sure it works through the system.Due to the nature of how this works it does take awhile to load a document using this macro. Once loaded you do NOT need to push the REFRESH LIST Button.ThanksTo:Chet Rhodes/ARRBcc: From:Bob Skwirot/ARRB Date:10/11/96 04:52:32 PMSubject:Large document problems.
